

WATER PUMP

PA0013 – WP6558 & WP6674

The 1.4 TSI engine is fitted to a vast array of VAG vehicles. Alongside the WP6558 we have developed the WP6674 which is due into our range later this year. The WP6674 is strictly for CNG VW applications (Compressed Natural Gas).

The 1.4 TSI engine has been re-engineered to cope with the increased strain from the CNG setup, on areas such as the Water Cooling and lubrication system. Flow rates of the coolant pump have had to be increased due to the higher thermal load produced by the CNG functionality, therefore the pulley diameter has been increased to support this.

WP6674

WP6558

Make	Model	Year	Part Number
AUDI	A1	2010 >	WP6558
SEAT	IBIZA	2009 – 2017	WP6558
SKODA	FABIA	2010 – 2014	WP6558
VW	GOLF PASSAT POLO	2006 – 2017	WP6558
VW	PASSAT CC TOURAN	2009 – 2016	WP6674
